MADAM'S LODGE

THE NEW LISBON'S EXPERIENCE

INHABIT THE ROOMS THAT BELONGED TO THE FORMER HARLOTS

LOCATED IN LISBON, OPENS THE DOORS OF A NEW AND BOLD EXPERIENCE: MADAM'S LODGE. AN OPPORTUNITY TO INHABIT THE ROOMS THAT BELONGED TO THE FORMER HARLOTS AND UNVEIL THEIR LIFE STORIES, WHICH WILL MAKE PINK STREET BLUSH EVEN MORE.

Last century, sailors from all over the world disembarked at Cais do Sodré thirsty for fun. Here abounded bars with names of European capitals and harlots ready to love by the hour. It was the bohemian center of the city where bourgeois, writers, Fado singers, spies and prostitutes shared passions. After a period of decay and abandonment, Cais do Sodré is reborn with the opening of PA, in 2011. It quickly became an icon of a modern Lisbon, opened to the world but proud of its identity. After a deep renovation, completed in 2022, Pensão Amor rose even more and in the mid-2023 opens it's doors to a journey back in time: Madam's Lodge. A unique experience that invites to inhabit the former harlots' rooms and unveil the never revealed secrets of this old brothel.

Pensão Amor was reborn to embrace the modern “seafarers”, who visit Lisbon to discover this vibrant city full of culture and tradition.

The various rooms, decorated with life and art, have different bars and sometimes are dance floors, sometimes stages for surprise pole dance shows, sensual burlesque presentations, themed parties, poetry meetings, plays and lots of live music. There is even a “girlfriend on duty“, an artistic performance to warm the lonely hearts. No wonder they have become the most desired parties in Lisbon’s nightlife scene.

In every corner, unusual personal objects, surprising documents of the day-to-day business, mysterious messages and many surprises reveal the way of life of this old brothel in the 60s, at a time when harlots, known as “the enrolled”, could legally practice the oldest profession in the world. However, on the horizon was already Salazar's threat to end prostitution in Portugal, which would happen in 1963. Thus, Madam's Lodge marks the 60th anniversary of the prohibition of prostitution in Portugal and pays tribute to the life stories of these women.

Five different types of rooms filled with historical documents and objects reveal, for the first time, details about Lisbon's brothels modus operandi, their connection to culture and the way these women were seen: "a national good, because a man who attends to brothels does not dishonor maidens and does not deviate married women to someone else's pillow."

SECRETS ROOMS

Human traffickers who, dressed as nurses, attracted Lisbon's newcomers to the business, young provincial novices who exchanged the convent for the brothel. Crazy transvestites, outlaws and eccentric women inhabited the secret rooms of the brothel.

Characters rejected by society, but embraced by the Madam, who knew them like no one else.

Trust the Madam and discover which character she has in store for you.

More than maids, they were Madam's close friends and the few with access to her private room.

Among them resided the best-kept secrets of the brothel, from connections to the Secret Police of the Dictatorship, through the education of the new harlots to the schemes to make the pimps disappear who, under promises of protection, exploited these women. The most famous of them all was the “Roda Viva”, code name for sensual encounters that ended in orgies. These rooms, with huge beds, served as stage for the exotic shows of the Japanese Misaki; the famous contortionist Zu, owner of a real harem; the twin sisters’ soft spanking sessions and the crazy evenings of the mistresses Teresa and Rubia. Surrender yourself into the hands of the Madam and find out which Treasure you will inhabit.

SPECIAL CORNERS

Like so many harlots, the Madam began to gain fame on a corner of Cais do Sodré and, from there, built her empire of pleasure.

In honor of her past and everything she learned on the streets, she built the Special Corners within the brothel.

Two privileged rooms: one where she conducted the domination sessions herself, art that gave her fame among lovers, and another where a young provocateur, newly arrived from the streets, served foreign clients.

Which one of the special corners will the Madam choose for you to live in?

WORLD'S PEARLS

“More jewelry, more attention.” It was the basic rule in welcoming customers when the girls were called into the reception room.

A jewel-laden customer had direct access to “heaven”, as the top floor of the brothel was known for.

High level eroticism was ensured by exotic women from China, the East and Africa, who offered sensual experiences with water.

A waterfall inspired by tropical environments, steam baths or bubble bath. Which one of the Madam's Pearls awaits you?
